

Cadec and CMV Safety Partner to Ensure Customers are Up to Speed on Latest Trucking Industry Regulations

Partnership ensures Cadec Fleet Management solutions reflect very latest safety guidelines, so customers can stay compliant

MANCHESTER, NH and WATERLOO, Ontario – Feb. 18, 2008 – [Cadec](#) Global, a leading provider of advanced fleet [management](#) solutions, and CMV Safety Consulting Inc. announced today a new partnership designed to help keep Cadec customers abreast of the very latest North American safety regulations, such as drivers' [Hours of Service](#). The partnership was announced to Cadec's customers at the firm's 2008 User Group Conference, held Feb. 10-12 in Las Vegas.

Cadec is known for over 30 years of innovative fleet management systems, including the first paperless logs, which help organizations reduce the risks and costs associated with running both private and for-hire trucking fleets. CMV Safety provides Safety and Compliance resources and skills training to carriers across North America. Under the terms of this new partnership, CMV will provide Cadec with ongoing support on trucking industry legislative changes so that Cadec can incorporate new rules as they emerge into its software, to help customers automate enforcement and [compliance](#) among their fleets. Cadec is the first fleet management vendor to partner with CMV in this capacity. CMV will also offer consulting services to Cadec customers on safety and compliance strategies.

Brian Botham CDS, President of CMV, credits Cadec's fleet management solutions with making a tremendous positive impact on its customers' safety and compliance records. "Carriers are actively seeking better ways to both improve fleet efficiency and ensure that they are in compliance with a myriad of complex regulations," said Botham – a Certified Director of Safety with 25 years' experience in the transportation industry. "Cadec has done a terrific job helping its customers achieve both goals simultaneously. We're very pleased to be working with such a forward-looking partner."

"Cadec has three decades of expertise in fleet management and is widely recognized for its innovation," said Frank Moreno, Vice President of Marketing at Cadec. "When it came to regulatory [compliance](#), we decided to turn to an expert in that field – CMV Safety. We feel confident that by incorporating CMV's expertise into our software platform, we are providing our customers with the very best information available to help protect the health and safety of their employees and the travelers with whom they share the roads."

Cadec's fleet management software will incorporate CMV's regulatory data beginning in Q2 2008. For more detail on Cadec's software, visit www.cadec.com.
